

WIHA Professional ESD Tweezers

The new assortment of Wiha electronic tweezers expands the possibilities for exact, and at the same time, careful work with electronic components. These precision, special or universal tweezers are rapidly becoming essential accessories for everyday electronics work due to their high quality design:

ESD safe (antistatic), anti-magnetic, stainless and acid-resistant.

Unlike purely metal tweezers, the special coating here ensures a controlled dissipation of static charges, and therefore safe, standard-compliant use.
