Wrist Straps

The wrist strap is the most common and effective means of controlling ESD generated from people, it should be worn at all times by anyone at the work station. Our adjustable wrist strap includes an extendible coiled cord fitted with 1M resistor. 7804.190 - banana/socket+wrist strap 7804.193 - socket/socket+wrist strap

The wrist strap is the most common and effective means of protecting electronic devices from generated ESD. It is made from high-comfort-factor fabric and includes an extendible coiled cord fitted with $1M\Omega$ resistor.

Length: 1,8 m

Antistatic Heel Grounder

Foot grounders function exactly the same way as wrist straps by providing a ground path from the moisture layer on the wearer's skin through the foot grounder to the grounded floor surface. It is recommend that foot grounders are worn on both feet to ensure that one foot is always in contact with the floor or floor mat at all times.

THE REAL PROPERTY AND A DESCRIPTION OF A

NO. 56 A range of conductive brushes allows tho

A range of conductive brushes allows thorough cleaning without the risk of generating static charges. The brush consists of a conductive plastic handle and conductive fibres. Resistance from the tip of the brush to the handle is less than $1\times10^{\circ}\Omega$. Brushes should be used by operators who are earthed. Hard brushes are for scrubbing whilst soft ones are for brushing of delicate items such as optics and diskettes.

Earth Bonding Point Plug

EBP plug provides a safe, effective and simple method of using the ring mains earth as ground. Made of yellow ABS, Earth Bonding Point plug fits the european CEE(7) VII schuko sockets.

7804.874: Earth Bonding Plug with two 4mm plug sockets, one 10mm stud

Personnel Test Station 24V

The station incorporates a WRISTLAB tester, a foot plate and a striking yellow PVC panel. On the panel there is a mounting for the tester and also clearly written operating instructions. ISO9000 Traceable Certificate is supplied.

| 0 | ESD 7804.244, 150x200mm, green | 58167 |

TECOFIX Containers

Conductive polypropylene hopper-front containers for storage and distribution of small parts. They are suitable for all known wall rail and for our Vistafix assembly stand.

Vistafix zinc plated assembly stands are supplied complete of conductive Tecofix bins. They are especially suited for PCBs assembly and take a little space on the work table.

| | Part No. | Description | Ord.No. |
|---|--------------|--|---------|
| ο | ESD 7804.715 | Container TECOFIX 6 95x100x50mm | 58168 |

| ο | ESD 7804.721 | Container TECOFIX 5 235x145x125mm | 58170 |
| 0 | ESD 7804.739 | VISTAFIX 6 stand with 20 cont. Tecofix 6 | 58171 |

TRESTON Cabinets

Treston cabinets provide systematic storage of small parts or components which are ESD sensitive. The drawers made of conductive polyethylene can be fitted with dividers (optional).
