

## SOS = Supplier of Solutions

We are a transnational distributor of electronic components for industrial production. We specialize in verified world brands with design-in emphasis. Thus, we are with you already during the design and development of the devices. Customers are most grateful for the individual service and support. SOS electronic is a part of the strong German holding, Conrad Electronic.

## Why choose SOS electronic?

We do not only sell components, we also understand them. With us, it is not only about components delivery, but also about the complex of related services and benefits:

- authorized distributor of world brands
- DESIGN-IN - we are with you already during the design of your devices
- frame and JUST-IN-TIME deliveries
- individual service and support
- high packaging standards for industry
- customers from more than 100 countries of the world
- personal and human approach
- 30 years of experience
- branches in 6 countries
- more than 100 employees
- we communicate with you in 9 languages
- consulting already during the development phase
- guarantee of components directly from the manufactures
- samples for your projects for free
